

## Exercise 6.3

**Standards-Based Reporting**

The following questions deal with much of the important content in this chapter. Answer each one and then compare your answers with those provided on the corresponding answer sheet.

1. In table 6.6 (page 119), explain what “3 of 36” for level 4 in language arts means.
2. In table 6.6, explain why art and technology have fewer levels than the other subject areas.
3. Explain why an overall grade cannot be assigned in a standards-based approach.
4. Explain how the “grade-level” standards-based approach differs from the standards-based approach that does not use grade levels.
